Prior Authorization Required for Civilian Aircraft Weighing More Than 75,000 Pounds

DeKalb County Code (Sec 6-93) states aircraft with a gross certificated takeoff weight of more than 75,000 pounds are required to contact airport administration for prior authorization before landing at the airport. This is FAA-certificated [DD1] weight, not operational weight. Prior authorization is received or using the link below. If you are having trouble filling out the form you can call airport administration - (770) 936-5440 - during normal weekday work hours. Please provide your: N-number (registration number); type of aircraft; date and time of arrival (ETA); date and time of departure (ETD) and a point of contact including company name and telephone number. You will not receive a prior authorization number; you will receive an email that your request was received and granted. Multiple operations over multiple days require separate authorizations.
